Decoration Day Draws Big Crowd

CROSSFIELD — Sponsored by the Odd Fellows and Rebekahs of Crossfield, a Memorial Service and Decoration Day was well attended on Sunday last, August 17, at 2:00 p.m. in the Crossfield Cemetery. Master of ceremonies was Charles Fox, P.G.M. of Grand Lodge, who officially opened the service. He called on the N.G., Bill Walker; the Chaplain, F. Hopper, and P.N.G. Evelyn Lilley of the Rebekahs to participate in the service. Rev. Ball gave the memorial address which was very inspirational. Its context: to rever our departed, to put under foot all our petty grievances, greed and malice and to live and act for the construction of a better world. The graves were beautifully decorated with flowers and the cemetery was lovely with its green carpet of grass and its well-cared-for graves. Over 80 were present.

Marva, ten year-old daughter of Reverend and Mrs. McDonald, is a polio patient in the isolation hospital in Calgary. She is reported to be making satisfactory improvement.

Dr. Alexander from Calgary attended Mrs. Frank Laut, who was suddenly taken ill and was afraid that her condition pointed to polio. A speedy recovery is wished her.

Mr. and Mrs. Alex Gordon have had as their guest their daughter, and her family from Medicine Hat.

Mr. and Mrs. Allan Lymburner were week-end guests at the Kotow home.

Pretty Midsummer Wedding Held

CROSSFIELD — With the altar of the United Church flanked with fern and peonies and a background of blue delphinium, Kathleen Jeanette, second eldest daughter of Mr. and Mrs. James Kotow, Crossfield, repeated marriage vows with Allen Elliot, only son of Mr. and Mrs. Barton Lymburner, Forestburg, Alta., the wedding taking place at 2:30 p.m. on July 19, with Rev. Mr. Ball, pastor of that church, officiating.

Given in marriage by her father, the bride entered the aisle to the strains of Lohengrin's Bridal Chorus, with Mrs. Charney at the organ. She chose a white, ballerina length gown of nylon net with chantilly lace, bolero styled, over taffeta nylon. A beautiful three-quarter length veil of illusion net with wide border lace was caught and held in place by a demure pearl-trimmed Juliette head dress. In her hand she carried a white prayer book, covered with lace and fluted border, on which rested a dainty orchid, with petalled streamers. She wore an heirloom necklace of pearls, a gift from the groom, who also gave her a leather travel case.

Attending the bride were her sister, Joyce, and Eleanor Borbridge, who acted as bridesmaid and maid-of-honor, and whose dresses were both ballerina length, bolero styled net over taffeta nylon with respective colors of yellow and turquoise with alternating bouquets of blue and yellow tinted carnations. Both wore matching veils, altar length, with fluted, pear-adorned headpieces.

Little Judy Mansell, in a toe-length pastel green nylon net, made a pretty flower girl as she carried her nosegay of Ko-ko-mo rosebuds, which also adorned her headpiece.

The groom was supported by

Crossfield News Briefs

Mrs. Mike Charney is still a patient in the Turner Valley hospital. Miss Bernice Aldred is helping in the Charney home in her absence, as Barbara Bills was forced to quit as she had taken the flu. Mike, himself is taking treatment in Calgary and is feeling a little better. The Charney children are better, we are glad to report.

Walter Lilley has his rye swathed and hopes to swath wheat in the near future.

Farmers are finding it quite difficult to obtain all the necessary repairs for harvesting.

Leonard Bland and Vernon Becker have returned from a trip to the States.

Mr. and Mrs. Leo Pullen and family were recent Crossfield visitors.

Mr. and Mrs. Bob Thompson and Mr. and Mrs. Vic Watson have returned to Airdrie after a recent visit to Great Falls.

The manse of the United Church is undergoing a thorough cleaning under the hands of the WA Sr. group. The kitchen has been painted and all the living room and dining room wood work has been varnished. It is hoped that new floor coverings may be put down and old ones changed around. This takes a lot of work which is gratis. So far three members have worked but others hope to be free to help this week which will be appreciated. Mr. Sam Fleming is re-shingling the back porch and also doing repair work where ever it is possible. The WA feel very indebted to him for his efforts on their behalf.

Jack Brown, formerly of the Canadian Bank of Commerce, together with his mother was a visitor at the Lilley home on Wednesday last. Jack was heading for Bowden to visit his uncles.

Mr. and Mrs. Herbie Bliss of Vancouver, son of Mr. and Mrs. Louis Bliss were fleeting visitors at the Bliss farm. They took home their daughter Pat, who had spent a week with her grandparents.

Mr. and Mrs. Chas. Fox entertained on Wednesday last in honor of Mr. and Mrs. Walter Colling, who were returning from a trip to St. Thomas, Ont., and other points before proceeding to their home in Chilliwaak, they stopped to renew acquaintances with their Crossfield friends. There were 20 present at the Fox home.

Lynn Price of Taber was a recent visitor at his parental home in Crossfield.

Mr. and Mrs. Bert Rodgers and Mr. and Mrs. Earl Richardson have returned from a motor trip to the States.

Miss Helen Deeks and Miss Freda Campbell of Ottawa were recent visitors at the Deeks' home in Airdrie.

Those who remember Pete Kashmar, who was for a few months connected with the CPR in Crossfield, was through town last week. He was married in Camrose on Thursday at 2 p.m. at a double ring ceremony and was heading south for a few days honeymoon, calling at the home of Mr. and Mrs. Bert Lilley with his new bride. Pete used to make his home with the Lilleys.

his friend, Harley Youngberg, and the guests were ushered to pews marked with white satin bows, by Kenneth and Raymond Kotow, brothers of the bride.

During the signing of the register, Crossfield's songbird, Miss Joanne Copley, sweetly sang, "Be-

(Continued on Page 4)

MEETING THE OFFICERS of HMCS Athabaskan during his visit to Canadian destroyers serving in the Far East, Commodore James C. Hibbard, Chief of Naval Personnel, is shown shaking hands with Lieut. (E) J. W. Hamilton of Vancouver, the Athabaskan's engineer officer. Left to right the group includes Commissioned Gunner (TAS) D. W. Hurl

of Winnipeg and Victoria; Lieut.-Cdr. R. B. Hayward, Victoria, and Duncan, B.C., executive officer of the Athabaskan; Lieut. Hamilton; Lieut.-Cdr. (L) J. B. Hall of Victoria, electrical officer, and Lieut.-Cdr. C. A. Hamer, Victoria. At the left is Commander Dudley G. King of Vancouver and Victoria, commanding officer of the Athabaskan. — (National Defence Photo).

KATHLEEN J. KOTOW WEDS A. LYMBURNER

With a colorful background of friend Harley Youngberg and the tall delphinium, the altar of the guests were ushered to their pews Crossfield United Church flanked which were marked with satin with fern, roses and peonies, a bows, by Raymond and Kenneth Kotow, brothers of the bride.

During the signing of the register, accompanied by Mrs. Charney at the organ Miss Joanne Copley sweetly sang "Because."

After a frolic around town, the wedding party assisted by Mr. and Mrs. Kotow, bride's parents and Mesdames Allen and Lymburner, grandmothers of the groom, received over 60 guests in the Masonic hall which was decorated in an attractive scheme of white and blue streamers converging to clusters of white wedding bells. The pillars were wrapped in matching blue.

For this occasion Mrs. Kotow wore a flowered nylon model, pink rose corsage and grey accessories; the grandmothers of the groom were both attired in blue with harmonious corsages and matching accessories.

The guests were seated and a buffet luncheon was enjoyed. The bride's table was centred with an artistically decorated, three-tiered wedding cake, flanked with silver candelabra supporting tall white tapers and a dainty arrangement of pale blue columbine in miniature vases of crystal with silver inlay. Fifteen of the immediate bridal party were seated at the table.

The toast to the bride was proposed by Mr. Ball and a suitable response was voiced by the groom. The happy couple left that evening for a honeymoon trip to Great Falls and points of interest along the way, the bride donning a navy blue suit with white and navy accessories for her travel garb. On their return, the groom's occupation with an oil company will decide their various points of residence, but the best wishes from

Postpones Achievement Day

CROSSFIELD — Due to the polio epidemic, the Happy Gang Garden Club has postponed its Achievement Day indefinitely. The big Chinese Lawn Social, which was anticipated, will have to be forgotten for a while.

The club hope to continue their projects as soon as possible, but at the present are very anxious for the recovery of their leader, Mrs. Frank Laut, who has contracted the dreaded disease. Mrs. Laut was a tireless and very beloved leader and worker, and the girls, like everyone else, is hoping for a quick restoration to health.

Third Birthday Present

BROOKS, Ky. — For the third time, Mrs. Sylvia Griffin, 21, presented her husband with a baby on his birthday, July 28. The last one, a boy, was born in July 28 this year. The other children are Diana, 3, and Yvonne, 1.

Crossfield will go with them at all times, and places.

The groom's gift to his bride was a leather overnight travel case.

The out-of-town guests for the wedding included: Mr. and Mrs. O. J. Mortinson, Mrs. Frank Allen, Mrs. Alonza Lymburner, Miss Alice and Miss Hester Lymburner, Mr. and Mrs. Lloyd Cook, all of Edmonton; Mr. Chas. Nesbitt, Fernintosh; Mr. and Mrs. Robert Lymburner, Mr. and Mrs. Rudy Swanburn, all of Camrose; Mr. Harley Youngberg, Banff; Mrs. Anderson and Birgit, Ogden; Miss Carol Rushworth, Medicine Hat; Mrs. K. Bowen and Ronnie, Rimby; Mr. and Mrs. Joe Kotow, Mr. and Mrs. Chas. Weihe, both from Saskatchewan; Mr. and Mrs. Will Kotow, Calgary; Mr. and Mrs. Jack Thompson, Frank and Marina, from Lacombe.

EDITORIALS

Grain Congestion Ahead

Wheat harvesting has started in Manitoba and will spread westward as the season advances. With good weather conditions, a good start in wheat cutting will be made in southeastern Alberta in a couple of weeks' time.

For some time it has been quite apparent that this coming harvest season will witness one of the most serious congestions in grain handling that has been experienced since the war years. Insofar as the Wheat Board, elevator companies and railways are concerned, not a great deal can be done about the situation. The end of the United States steel strike has only aggravated conditions, for lake shipping will now go to ore carrying.

Providing of farm storage seems to be the only course left open to grain producers.

Municipal, Provincial, Federal

The overwhelming majority with which the Social Credit party has been returned to office in the Provincial Legislature leads us along two or three avenues of thought.

For one thing, several able mayors, Reeves and councillors who have held office in municipal government, ably and with the support of a majority of the people in their district, did not get the same support when they tried to gain office on the Provincial level of politics. Perhaps Albertans are more selective of personalities in local government while in the Provincial sphere they just vote the straight party ticket.

They are, of course, exceptions to this. Reeve Aloisio of the Municipal District of Athabasca was elected to the legislature as a Social Creditor. But, on the other hand, Reeve Evjen of Stony Plain and the Mayor of Morinville were each defeated in the Provincial election.

So often, too, it seems to us, the same electors who send a Liberal to Ottawa, elect a Social Creditor for the Legislature at Edmonton, meanwhile returning, year after year, Reeves and Councillors who are definitely Liberal or C.C.F. in party politics.

We, therefore, seem to operate on three standards of politics for three levels of government. It seems unfortunate that men who are qualified by years of public service in local politics are denied the privilege of "moving up" the scale.

The Whooping Crane

Two workers for the United States Field and Wild Life Service recently announced, after a trip over the Arctic, they had discovered breeding grounds of the almost extinct whooping crane. Ornithologists have sought this hide-away in vain for more than 50 years.

The whooping crane is thought to be down to about 35 in number, and annually flies from the Arctic down to the Texas Coast. Bird lovers have long sought its breeding ground, so as to protect it from the inroads of hunters and other dangers, so that the birds might survive.

The two U.S. Field and Wild Life Service workers, who discovered the breeding ground, flying in an amphibious plane, brought their craft down to 100 feet over the birds and took photographs. There is little doubt that the two men have discovered the long-sought breeding ground of the bird that is said to be audible at a two-mile distance when he whoops.

Though some of us may not appreciate the significance of this scientific discovery, genuine died-in-the-wool bird lovers were thrown into a tizzy by news of the last whooping crane development. That discovery probably means, among other things, that one of these days in the future you will hear the whoop of a whooping crane.

Bible Today

How beautiful upon the mountains are the feet of him that bringeth good tidings; that publisheth peace; that bringeth good tidings of good; that publisheth salvation.—Isaiah, III, 7.

Big Crop

Present prospects indicate a big wheat crop for Western Canada and possibly a record one. Early frosts or bad harvesting weather may prevent the realization of same, but present prospects appear excellent.

The biggest crop of wheat in Canada's history was produced in 1928, the total being 566,726,000 bushels, of which the prairie provinces produced 544,598,000 bushels.

In 1942 Canada produced 556,684,000 bushels, of which 529,000,000 came from the prairie provinces. The 1951 production of wheat was the second largest in the nation's history—562,395,000 bushels, of which total the prairie provinces produced 531 million.

The Prolonged Peace Negotiations

Latest efforts of the peace negotiators in the little village of Panmunjom have been unsuccessful. There had been optimism about a month ago when the Communists asked for secret meetings because in the past when the Communists were ready to make concessions they have asked for secret meetings. Open discussions are used by the Reds mainly for propaganda purposes.

The official summary of the secret meetings released by the United Nations makes it quite clear the conferees were still deadlocked over the issue involving the exchange of prisoners of war.

The United Nations with about 170,000 prisoners takes the position that only those prisoners who desire to be returned should be returned to Communist territory. The Reds, with about 12,000 prisoners, demand that all prisoners be returned regardless of their wishes.

About the only new development was the indication by the Chinese delegation that if the 20,000 Chinese prisoners were returned, the Communists would be willing to forget about some of the North Korean prisoners. Major General William K. Harrison, Jr., senior Allied delegate, said no to this proposal.

General Harrison has about lost faith in the possibility of any settlement. In coming out of a recent meeting he exclaimed to newspaper correspondents that he was "fed up with the (Communists)" utter hypocrisy.

Exploring the Ocean Depths

In an article in the Scientific Monthly, Dr. K. O. Emery of the United States Geological Survey, discussed diving bells and the trend to the use of underwater cameras as being more efficient and safer.

Back in 1934, William Beebe and Otis Barton, in a diving bell called a bathysphere, descended to a depth of 3,000 feet to study the plants and fish that live there. Five years later Barton went down 1,500 feet further in his benthoscope to set what still remains as the record.

In 1941, Dr. Maurice Ewing demonstrated the possibilities of the camera by photographing the bottoms of the Atlantic and Pacific Oceans at depths up to 1,200 feet. Later he was able to make pictures 18,000 feet below.

The first multi-shot camera was invented in 1950 by Robert Dietz. Previously cameras had to be raised and reloaded after each exposure. At Bikini Atoll, the Navy used an underwater television transmitter.

Probably, the oldest of the underwater cameras, is the benthograph, devised by Maurice Nelles, Perry Stile, William Fortin and Capt. Allan Hancock. The benthograph is a globe 39 inches in diameter, equipped with a multi-shot camera and other instruments. Light from axenon flashtube is turned on and off every 30 to 60 seconds.

The benthograph is lowered from a boat by a winch. When bottom has been reached it is registered on a cable strain meter. The globe is then raised about 100 feet to wash the mud off the quartz-glass windows, and then the benthograph is ready to record the facts of life down under the depths.

NOTHING BUT THE TRUTH

Voice of the People

PEOPLE WE KNOW

I want you to know how much we appreciate reading the Lac la Biche Herald. Your weekly paper is the most interesting we get, because it has news about people we know. And it's always a pleasure to read about our friends and neighbors.

MRS. HERBERT L. THOMPSON, Briereville.

A PASTOR'S COMMENT

Several have congratulated you upon your editorials regarding Christian teaching and revival. I gladly join this group in expressing appreciation. However, I should like to state that "another Wesley" would not meet the need. Let all Christians live nearer to God—and become more and more Christ centered. This more than anything else will meet the need of this or any other age.

John Wesley was a great power for good in his day. The influence of his life still goes on—will never cease. Few people realize that Wesley worked for great social changes, as prison reform, abolition of slavery, etc. Wesley's sermons are very different from those of modern evangelists, in that they were on a high intellectual level, and were written in full before they were delivered.

John Wesley, great leader though he was, had serious shortcomings. His marriage was a complete failure. So much so that he did not live with his wife except for a few months.

Moreover, Wesley had very foolish ideas in regard to ghosts, actually believing that graveyards and certain houses were haunted. It must also be noted that Wesley spent a great deal of time and energy in controversy, especially with the Calvinists. Today many of us feel that such controversies are a sinful waste of time.

Despite all this, Wesley was greatly used of God. Still, may I say that the great need of today is that all God's people may daily pray:

"Close to Thee, close to Thee, All along my pilgrim journey, Saviour, let me walk with Thee."

REV. G. A. SAUDER, Pastor United Church, Waskatenau, Alberta.

COLORFUL LICENSE PLATES

Recently, I have had an opportunity to observe some tourists' cars, and was pleased to see how decorative some license plates were. Some depicted the coat of arms or a descriptive phrase of their state or province.

Quoting some of these phrases: Saskatchewan, "The Wheat Province"; Kansas, "The Wheat State"; Florida, "Sunshine State"; Maine, "Vacationland"; while Wyoming has a bucking horse, Quebec has a Fleur-de-lis, Prince Edward Island the coat of arms.

The most colorful and attractive was Yukon, N.W.T., which read "Land of the Midnight Sun" and showed an RCMP holding a ball representing the sun.

I say let Alberta decorate her license plates with a colorful oil derrick or a phrase such as "The Oil Province". We are proud of our province, so let's display our pride throughout other provinces and states.

Come on you Alberta motorists. Advertising our province in this manner will lure more tourists. It will also give us farmers a chance to stick out our chests, since we cannot boast about the price of our farm products. Minus our two front teeth, in twenty years we'll take a holiday and come back with a tankful of gas. "Like the little moron who travelled miles and miles to obtain cheaper gas and used it all up before he got back".

Heave Ho! and push together for colorful license plates for 1954.

"A CASUAL OBSERVER". Vilna.

FROM N.M. TO TEXAS

I've really enjoyed reading every issue of your paper since we've been "away down South" so far from Alberta. We have now moved from Carlsbad, New Mexico, to Fort Stockton, Texas. Please change our address on your mailing list as we don't want to miss a single copy.

THE LIGHTER SIDE

More Expense While Waiting
"The average rural teacher's salary is \$967 a year," said the man, "while the city teacher gets twice as much."
"Well," replied the woman, "it takes them twice as long to find a husband in town."

Why Not?
One of our waitresses, at the breakfast hour, served coffee and toast to a patron; 10 minutes later she breezed in with the orange juice. The customer complained of the sequence. "Are you married?" asked the waitress. "Yes," said the customer, "what's that got to do with it?" "Well," says our dilemma, "why don't you have breakfast at home?"

Male Parents Are That Way
Why is it fathers laugh in glee at tricks their children do at three and spank them if they see a sign of such behavior when they're nine?

Life Is Like That
"Well, Mrs. Waggs, did the election turn out the way you expected?"
"Oh, yes, I was afraid all the time it wouldn't go like I said it would. And it didn't."

Poor Diagnosis
During a fire in the night, the tenants of an apartment hotel rushed into the street carrying their most prized possessions. One woman noticed that the gentleman who lived directly above her was carrying a large, covered bird cage.
"What have you there?" she asked out of curiosity.
"That's my pet rooster," said the man.
The woman gasped and fainted. When she was revived she told her anxious neighbor, "I'm sorry I fainted, but you see, I've been under treatment by a psychiatrist for the past year because I kept hearing a rooster crowing!"

WHAT'S IN THE NAME

By STEVE GUSHTA
Spedden Correspondent

This column, which is being presented weekly, has a two-fold purpose: first, to bring to the readers a word picture of the different Alberta hamlets, villages, towns and cities. Some of these names you are no doubt familiar with, others of which are obscure in your minds—that such so-named settlements exist. Secondly, the name origin of each hamlet, village, town, or city dealt with will be brought forth to better acquaint the reading public with these various place names of the oil province of Canada, Alberta.

VILNA
The Village of Vilna with a population of around 322, that

Wags We Can Do Without
The businessman was fast asleep in his hotel room when the phone rang. It rang for a full minute before he awakened. He picked up the receiver sleepily.
"Long distance calling!" an operator sang out. "Here is your party."
"Okay," yawned the businessman. "Hello!"
"What's that?" cried the voice at the other end.
"I said 'hello!'" The businessman paused.
"Well," he demanded, "what do you want?"
"Nothing," answered the voice, "absolutely nothing."
The other saw red.
"What!" he roared. "If you didn't want anything, why do you call me at three in the morning?"
"That's simple," replied the voice cheerily. "The night rate is cheaper!"

Dominion Govt. Sells Oil and Gas Rights On Crown Lands

The Department of Resources and Development announced today the successful tenderers and the bonuses bid for the purchase of petroleum and natural gas leases in the Province of Alberta in a competition which closed the 23th of July, 1952. These included the following:

Parcel No. 433—N.E. 7-47-18 W4th, 8 miles East of Camrose; successful tenderer, Fred A. King; bonus, \$1,600.00.

Parcel No. 434—N.W. 7-39-22 W4th, 4 miles South of Alix; successful tenderer, Federated Petroleum Ltd.; bonus \$21,777.07.

Parcel No. 440—N.W. 23-55-27 W4th, 9 miles Southwest of Morinville; successful tenderer, J. Zipperstein; bonus, \$168.00.

Parcel No. 441—S.W. 23-55-27 W4th, 9 miles Southwest of Morinville; successful tenderer, Dr. G. I. Todson; bonus, \$2,500.00.

was the figure taken from the 1946 census, and the present population is much higher, is situated principally in a farming district. Vilna was named after Vilna in Galicia, by settlers who came from there. The first homesteaders arrived in the Vilna district in 1918 and 1919. Mr. Z. W. Mikitka was one of the first settlers and is still living in the district. The first school was erected in 1920. In 1929 a hospital was built and Dr. W. W. Eadie was the first resident doctor. The present doctor is Dr. P. W. Frobb. Vilna was incorporated as a village in 1924.

Sixty-one miles east and 35 miles north of Edmonton, Vilna is constituted of the following: one modern hotel; one restaurant; five garages and service stations; one barber shop; a pool hall; two shoe repairs; one electrical contractor; one drug store; one lumber yard; two egg grading stations; one creamery; four implement dealers; a theatre; a modern school; five grain elevators and many other business places.

CHIN
A hamlet of unknown population, Chin is located some 18 miles east of Lethbridge in a ranching and farming region. The hamlet was named after a hill, coulee, and village from the Blackfoot word, "mistaomio," meaning "heard." This word described the shape of the hill when it was seen from a distance.

The new W.G. Grain Loader being made in Edmonton.

New W.G. Grain Loader Hits Edmonton Markets

The W.G. Grain Loader, the latest thing in farm machinery is now being manufactured in Edmonton. The Loader was designed and is being manufactured exclusively by the Machinery Designers of Canada Ltd. for the William Goett Co.

The company operated in Calgary for four years, with most of their units being shipped north. When an opportunity presented itself whereby the company could locate in Edmonton with some permanence and realizing the potential field for their product in the Edmonton area, negotiated with the William Goett Company, which has a contract to turn out a minimum of 300 loaders by October 15, 1952, plus any other products such as may be desired by the company.

This new grain loader is outstanding inasmuch as it is the only fully ballbearing loader on the market. The machine is streamlined in design for perfect balance and easy moving. The frictionless ball-bearing construction means easy operation in every required loader position. With the height and reach of this loader, it elevates water or grain with equal facility.

The W.G. Grain Loader can be had in various lengths and various horsepower. The motor, to which there is easy access, is centrally located on the loader. It can be used with hopper, in a granary or a truck and can easily be moved from one location to another by attaching to rear of truck, tractor or whatever means of transportation is being used.

The company expects to expand rapidly into a good sized manufacturing company, which will principally manufacture light farm implements and accessories. Besides the W.G. Loader, portable disc grinders, seed treaters, and pump jacks are being turned out.

Municipal Office, Post Office Saved As Cafe Burns

ALBERTA BEACH — Alberta Beach was the scene of a disastrous fire Sunday at midnight, when L. Hurtle's Cafe burned to the ground. The municipal office and post office were in danger for a time. Postmaster Klinkhamer and Councillors Patterson and Tyrell carried all post office supplies and municipal records to safety.

Cause of the fire is not known. No damage was done to either of the other buildings.

Home From Korea, Visits Parents

GAINFORD — Roy Thompson, son of Mr. and Mrs. Hal Thompson, who has recently come back from Korea, was married in eastern Canada and brought his bride back to visit his parents while he went on to Comox, B.C., where he is stationed with the Air Force. Mrs. Roy Thompson left last week to join him there.

Swanson, both from Camrose; Mr. Harley Youngberg, Banff; Mrs. (Rev.) Anderson and daughter, Birgit, Calgary; Mrs. Dorothy Bowen and Ronnie, Rimby; Mr. and Mrs. Joe Kotow from Saskatchewan; Mr. and Mrs. Wilf Kotow, Calmar; Mr. and Mrs. Thompson, Frank and Marina, Lacombe; Mr. and Mrs. Chas. Wiebe, Saskatchewan.

The happy couple left for a honeymoon trip by motor for Great Falls and other points, the bride travelling in a navy blue suit with white and navy accessories.

The locations of the oil company with which the groom is connected will decide the trailer habitation of the happy couple.

Dairy Herd Brings Good Price At Sale

LEVEL LAND — F. A. Tetz of this district sold his dairy herd and it is reported that they sold exceptionally well. The price range was between \$400 and \$500. Mr. Tetz had a good herd, many of which came from Dr. Hayes' farm. The S.D.A. Dorcas Society served doughnuts and punch.

Miss Leanne Schlager of East Coulee is spending a few days' holiday at the home of Mr. and Mrs. Jake Gimbel.

Harvesting has started in this district somewhat earlier this year. Quite a number have swathed barley or rye during the first ten days of August. John Lelske had picked up 2400 bushels of barley by August 13 and he reports that it was a good yield. He also swathed his oats on the 17th.

Level Land News Briefs

Mrs. Patzer of Calgary was visiting with her daughter, Mrs. Roy Schaber, of this district.

Mr. and Mrs. A. A. Roth of Calgary were week-end visitors in the Level Land district.

Mr. and Mrs. Walter Bechtold of Calgary were visiting in the Level Land district over the week-end.

Mr. and Mrs. Percy Paul of Union College, Lincoln, Nebraska, were visiting with parents, Mr. and Mrs. Albert Huether, for past week. Mr. Paul graduated from Union College last year. This coming school season he will be principal of Milwaukee Junior Academy. Also visiting with their parents, Mr. and Mrs. Albert Huether, are Mrs. Bill Black of Galatin Gateway, Montana, and Miss Della Huether of Calgary.

Cute Trick Fatal

MOUNT VERNON, III. — Billy the horse had a cute trick, of which his owner, I. B. Morgan, was very proud—he could open gates and doors by himself. However, Billy opened the door of Morgan's wheat granary and he and his mate, Beaut, ate their fill, filled up with water, swelled up and died.

Give us your head to run our business . . . in return —GOOD GROOMING.

Norm's Barber Shop

NOTICE

Under the provisions of Section 17 of the Noxious Weeds Act it is the responsibility of the farmer to take care of weeds on roadsides. Snow cannot be removed from roads where weeds are left standing, therefore roadsides should be mowed as soon as possible.

M.D. of Mountain View, No. 49,
J. RIDDOCH, Secretary-Treasurer.

KNOW ABOUT

Maintain Standards of Sanitation

- Wash Dishes thoroughly.
- Wash Fruits and Vegetables.
- Cover Garbage and Waste material.
- Control Sewage — Outdoor Toilets should be dusted daily with Chloride of Lime or Ashes.

POLIO!

- Polio is a communicable disease — avoid crowds, restrict children to small neighborhood groups.
- A tired child is more susceptible to the disease and if the disease develops, a greater degree of paralysis is likely to follow.
- Swimming is dangerous because it causes fatigue and is chilling.
- Watch your personal hygiene — be sure to wash your hands before eating and after using the toilet.
- Where the disease is prevalent, avoid the removal of tonsils, adenoids and teeth.
- Mild cases are best cared for at home — a trip to hospital causes fatigue and may be dangerous.

Over 80 per cent of Cases Recover Completely

In mild cases, best results are obtained in bed at home

LETTERS TO LOUISA

Dear Louisa,

I come from a thrifty family who always liked to pay cash for what they bought and that is the problem I have now. I married a fine man three years ago and we are very happy and get along fine about everything but his ideas on buying.

"He never wants to deny himself or me anything we happen to like. He wants to buy it on time and pay as we enjoy it. Now this would not be so bad if his wishes were in reason and we could see our way clear to paying for them but that is not so, in our case.

He makes a fair salary and has good prospects for advancement and at present we can afford a cheap car, a small house and ordinary clothes with which I would be very happy until we reach the stage where we can afford nice things. But not for him.

On my birthday he gave me a nice convertible and now has plans for a home we can ill afford. This means that we will not be able to put aside any money at all for a rainy day and if either of us should have an operation or he should lose his job we would lose

everything we had put into these things.

What can I do? I am most unhappy about this state of affairs but I hate to hurt his feelings.

Answer: B.M.
I read an article a few days ago in which the writer stated that people who refused to plan their lives and lived beyond their means were emotionally immature. He said that it was due to infantillism and just having to have what they wanted when they wanted it. They couldn't deny themselves anything.

So, while it is time for your husband to grow up emotionally, I am not sure that you can do anything about it.

Why don't you suggest budgeting your income to your husband? If he would agree to put aside so much for insurance and a savings account, you could see what you have to spend on other things without endangering your future.

LOUISA.

Dear Louisa:

I am writing this hoping it will help some one who doesn't know what to do about a mother or mother-in-law who has been left alone without funds. My mother and husband get along nicely but neither of them were anxious to live in the same home. So we added on a nice big room with a small kitchenette and bath to our house and there mother lives and both of us enjoy our privacy. If she doesn't care to cook dinner, she occasionally eats with us, or I will send her a tray. It is nice to know she is there when I am away and the children are at home. We help each other in many ways but we do not annoy one another.

B.N.

Wheat Cutting Starts In Southern Alberta

According to the Alberta Wheat Pool crop report cutting of wheat commenced last week in Southern Alberta. As far as the rest of the province is concerned, wheat harvesting will be later. The entire crop is earlier than last year, but later than normal.

Present prospects indicate good yields of all grains in all parts of Alberta. Harvesting of rye is well advanced in the southeast and cutting of barley is fairly general. A start has been made in rye cutting elsewhere in the province and some barley will be ready during the coming week.

Growing conditions for the week ending August 9 were again favorable for crop development. Warm weather has continued, accompanied by thunder showers to light rains.

Crops have advanced rapidly and moisture in most areas is sufficient to fully mature crops. A number of points in east-central parts of the province report yields will be reduced somewhat if hot weather continues without further precipitation.

Alberta's crops should reach bumper proportions providing the weather remains favorable for the balance of the season. Generally speaking, the need is for warm dry weather to promote ripening.

Farmers are urged to take advantage of the time before harvest to build farm storage space as country elevators in many points are still holding much of last year's crops.

The harvest will be a hard one financially for farmers as the quotas have been set at five bushels for wheat and rye, and four bushels for oats and barley per seeded acre.

\$1 for EMBARRASSING MOMENTS

The Editor will pay \$1.00 for every item published on "The Most Embarrassing Moment of My Life." To qualify, items must be true, personal incidents. Address "Embarrassing Moments", P.O. Box 4568, South Edmonton.

One day at school, during school time, I and two other boys went into the cloakroom to get a drink of water. Suddenly I got an idea. Wanting to make the boys laugh, I took one of the girl's caps and pulled it over my eyes, then I took two brooms and pretending they were crutches I hopped around on one foot. Some one walked into the cloakroom. Thinking it was one of the boys, I made a funny face, put the brooms under my arms and looking up, pulled the cap off my eyes. Imagine my embarrassment when I discovered the new on-looker was the teacher.

Colinton, Alta.

T. T.

One winter a man by the name of Mr. Jackson stayed with us. He used to call our little girl Mary Anne "Suzie." She didn't like it, so one day she came crying to me in another room and said, "Mr. Jackson always calls me Suzie," so I whispered to her, "Call him Jackie." So she yells out to him, "Jackie, Jackie, mamma told me to call you Jackie." I sure was embarrassed. MRS. JOE HUDEC.
Picardville, Alta., R.R.1.

Farmer Director Passes

The death of James Jesse Strang, age 71, occurred in Magrath on July 30th. The late Mr. Strang homesteaded in the Claresholm district in 1904 and later moved to Magrath. He had always taken an active interest in farm organizations, and served as a director of the Alberta Wheat Pool for the Claresholm District for twelve years before retiring in 1936.

PROBLEM OF DELINQUENTS
BLAMED ON PARENTS

LACOMBE — "The blame for the growing problem of juvenile delinquency lies squarely at the door of parents," Elmer R. Walde, Seventh-day Adventist church leader from Washington, D.C., told members attending the annual province-wide conference at Lacombe, recently.

"No school or church influences, however good, can wholly neutralize the effects of the home, which molds the child during the most impressionable years, the churchman stated.

Declaring that "there is no higher success than to raise a child to become a good citizen and a sincere Christian," Mr. Walde warned that "parental admonition will have little effect if children do not see principles of honesty, unselfishness and industry put in practice by father and mother."

In a special service marking the centennial of the church's first Sabbath school, the Seventh-day Adventist with the longest record

in Alberta for Sabbath school attendance was honored.

The man was 85-year-old Alton V. Farnsworth of Cassils, who began his attendance record 83 years ago in the first Seventh-day Adventist Church ever organized—in Washington, New Hampshire.

The Adventist Sabbath school organization marked its centennial year by passing the million mark in membership throughout the world. During the 100 years, \$80 million have been contributed to foreign missions projects now carried on in every major country of the world. This is nearly half

ELMER R. WALDE

of all the foreign missions funds the denomination has raised during the century.

The 2,000 visitors at the meeting Saturday gave \$7,675 for Evangelism in the Alberta Conference and for foreign missions.

Pastor Roland Carlill, in charge of the Lethbridge Seventh-day Adventist Church, was ordained to the gospel ministry in a service presided over by Pastor Walter A. Nelson, Oshawa, Ont., head of the church for Canada.

Rural Power For Baby Pigs

Farmers who have trouble raising baby pigs should be strong advocates of rural electrification. This is the opinion of Mr. Fitzpatrick, supervisor of Co-op Activities for the Alberta Government.

At a banquet in Sangudo last week, held by the Paddle Valley

\$1 for Favorite RECIPE

BANANA BREAD

- 1/2 cup shortening
1 cup sugar
2 eggs
1 cup mashed ripe bananas
1 teaspoon lemon juice
2 cups sifted flour
3 teaspoons baking powder
1/2 teaspoon salt
1 cup nut meats chopped

Cream shortening and sugar together. Beat eggs until light and add. Press bananas through sieve and add lemon juice. Blend with creamed mixture. Sift flour, baking powder and salt together and mix quickly into banana mixture. Add nuts. Bake in greased loaf pan in modern oven (375 deg. F) about 1 1/4 hours. Makes one (one pound) loaf.

One dollar for this week's Favorite Recipe went to Irene Sale at Athabasca. If you have a Favorite Recipe you'd like to share with others, send it to Recipe Editor, P.O. Box 4368, South Edmonton.

Rural Electrification Association to mark turning on of power, Mr. Fitzpatrick said a sun lamp was just the thing to keep baby pigs healthy. One farmer using this system claims he saves one pig from each litter that would likely otherwise die and the extra income from pigs alone goes a long way towards paying for the power used on his farm.

In our opinion teachers and policemen are underpaid.

Science Laboratory Produces New Gem To Out-Dazzle Diamond

Man's dream of producing a crystal brighter than a diamond has at last been realized. Out of the Science laboratory comes a gem of such sparkle and hardness that New York Times reports "It out-dazzles the diamond."

Canadians will be proud to learn the original natural crystal comes out of the mines at Allard Lake, 400 miles north of Quebec. Tanya is not an imitation, substitute, or synthetic diamond. It is the natural crystal recreated by the laboratory into the most brilliant gem now known to man. This is the jewel that Reader's Digest, Saturday Evening Post, Star Weekly and others told their readers "here at last is a gem for all the people, with more 'fire' and brilliance than any diamond, at one-tenth the price."

People have been denied the pleasure of wearing beautiful jewels in spite of the fact that nature has been lavish in countless rare and exotic crystals. High prices fixed by monopolies have made the prices of these gems prohibitive to most people. Science now provides a jewel with more "fire" and brilliance than any gem on earth at a price within the reach of all.

When nature formed the diamond, ages ago in her flaming crucible, another was also formed known as Titanium Rutile. This little known and neglected stone always had a refractive index (brilliance) above diamond. The research chemist dreamed of the day when he would remove the dark ugly stain from this crystal and give the world a gem with a dazzling, flashing, radiance and color such as the eyes of man had never before seen.

The momentous research that transformed this worthless natural stone into a jewel of breathtaking brilliance ended with final success in June, 1948. The story in the Star Weekly says: "The chemist, Dr. C. Moore, Jr., was experimenting with Titanium in a furnace he had designed. He noticed some crystals forming in the intense heat. The doctor immediately tested them for hardness, brilliance and color and found them identical with the natural Titanium Rutile crystal.

The Cinderella gem of Science was born. The ugly stain that veiled its brilliance for ages was forever gone and out of its pure crystalline depths streamed the white and blue of the diamond in higher intensity blended with "fire" of the opal, the spring green of the emerald all in one blaze of pure prismatic colors. They call

ed the new born gems Tanya after its mother element Titanium.

The first tests for brilliance in Canada were made April 17, 1950, at the physics department, University of Toronto. Dr. M. F. Crawford, Ph.D., F.R.S.C., in his letter states: "The refractive index (brilliance) of this gem is appreciably above diamond. The index of a diamond is 2.42. The index of Tanya is 2.62. This scientific proof settles the question as to which is now the most brilliant gem."

On February 26, 1951, Time magazine stated in its science column: "Tanya in 'fire' and brilliance surpasses diamond." The dispersion of diamond is twice that of common glass, but the dispersion of Tanya is seven times as much." This settles the question as to which gem has the most "fire."

The Association of American Jewellers give their evaluation of the new gem in an article by Dr. F. W. Pough, curator of minerals, Museum of Natural History, New York: "This new and amazing gem is clearly so remarkable for its dispersion that it is not fair to compare it with any other gem. Its pure prismatic colors are almost unbelievable. Its 'fire' cannot be approached by a diamond for it has more 'fire' than a diamond has ever shown." Tanya is a recreated jewel of incomparable brilliance and "fire." With these measured words the experts give Tanya the first place among the gems of earth.

How long will the brilliance last? Will it go milky like a zircon or go dull like the others. The Industrial Research Laboratories carried out physical and chemical tests "approximating what would happen to a ring in 50 years constant wear." These tests were detailed in the Official Journal of The Canadian Jewellers' Association October, 1950. After all the tests "The Tanya was not in any way affected."

Tanya is something much more than the most beautiful and brilliant gem, to thousands it is already the symbol of happiness. This little orb of radiant light and color reminds them always that the Cinderella story has come true. The ugly dark forgotten pebble is now the dazzling, flashing jewel of enduring loveliness.

RAJAH 1 1/2 CARAT \$69.50

SOMETHING REALLY NEW!
NOW... FOR THE FIRST TIME IN CANADA...
BRIGHTER-THAN-DIAMOND-

Out of the science laboratory comes a crystal of such hardness and brilliance "It out-dazzles the diamond."

YOU MAY NOW HAVE this gem of pure crystalline elegance set with exquisite grace in jewels of Gold, Palladium, or Platinum, for 1/10th the price you would pay for diamonds of the same size. HERE IS WHAT THEY SAY:

READER'S DIGEST, October, 1950

"An amazingly beautiful gem, not quite as hard as a diamond BUT FAR MORE BRILLIANT."

UNIVERSITY OF TORONTO, April 10, 1950

"This gem has a refractive index (brilliance) appreciably above diamond." (Diamond 2.42, Tanya 2.62)

TRADER AND CANADIAN JEWELLER

"Tests for permanent brilliance, approximating sixty years' wear by Industrial Research Laboratories. . . Its brilliance was NOT IN ANY WAY affected . . . it remained unchanged."

THE STAR WEEKLY, February 3, 1951

"The new wonder gem of Science combines the Aus of the Mediterranean, the fire of the opal, the spring green of the emerald with more sparkle than diamonds."

TIME MAGAZINE, February 26, 1951

"In some respects the new Tanya Gems are better than the real thing," they surpass diamond in sparkle and "fire."

OFFICIAL JOURNAL OF JEWELLERS ASSOCIATION

"Its 'life' and beauty cannot be approached by the diamond for it has much more 'fire' than a diamond has ever shown. Tanya is a re-created natural crystal of incomparable brilliance and 'fire'. Dr. F. W. Pough.

LEOPOLD MACAULEY

H. H. LEATHER

TWO CANADIAN Red Cross officials, Hon. Leopold Macaulay, Q.C., Toronto, chairman of Central Council, and Harold H. Leather, M.B.E., Hamilton, chairman of the National Executive Committee, have important roles in the XVIIIth International Red Cross Conference being held in Toronto, July 23-August 9. Mr. Macaulay will head the Canadian delegation, official hosts of the conference, and Mr. Leather will head the Canadian delegation in sessions of the relief commission. Both Mr. Macaulay and Mr. Leather have actively participated in preparations for the conference ever since last October when it was announced that it was to be held in Canada.

BEISEKER LIONS 34TH ANNUAL SPORTS DAY BIG SUCCESS

BEISEKER — Wednesday, August 6, the 34th Annual Sports Day was well attended with a great many people going through the gates.

A rather small but very spectacular and colorful parade led by the Beiseker Lions band started the day at 10 a.m. The dozen or so majorettes led by Margaret MacDonald with their beautiful uniforms and shiny batons in action as they did their most distinguishing march to the music of the band, under the direction of Norman Hollings, was more than breath taking as they went by. This coupled with the gay colors and the beautifully decorated horses and cars was certainly a sight which will not be forgotten for a long time.

After this the parade in its entirety, followed by the spectators proceeded to the sports grounds where the kiddies races, flag raising ceremony, tug of war, horse races, baby show, picture shows and ball games rounded out the entertainment for the day.

The flag raising speech was very capably delivered by F. A. Lount. After the flag was raised to its position the band played "God Save the Queen."

PARADE RESULTS:

Best decorated cars: 1. Mrs. Matt Schmaltz; 2. Mrs. L. L. Schmaltz.

Best decorated horses: 1. Adam Berreth; 2. E. Kroschel, M. Dennis, Baltzer Schmaltz.

Best decorated bikes: 1. Ilene Grabinsky; 2. Marie Schmaltz.

Red Cross entry: Marg and Angela Long.

Best comic: 1. Rose Schmaltz, Marie Kiprick, Marie Schwengler; 2. David Brosteaux.

Best comic rig: 1. Louis Schmaltz, Clair Schmaltz, Charles Schmaltz, Edward Schmaltz; 2. Albert Hagel, Lawrence Schmaltz; 3. Marvie Schmaltz, Allan Velker.

Floats: 1. Carbon Wheat Club; 2. Irricana Lions Club, Old Timers' float, Chris Schmaltz.

Mixed shoe race: 1. Lewanna Schwartzberger; 2. Alois Sanders; 3. Edward Kiprick.

PONY RACE:

1. E. Kroschel's horse, Beiseker; 2. Mrs. Ralph Dennis' horse, Irricana.

Beiseker Lions Derby: 1. Salon Marcus, E. Olson, Airdrie; 2. Rex, G. L. Rau, Beiseker; 3. Ideal Joe, G. L. Rau, Beiseker.

BALL GAME RESULTS:

First Game: Irricana 20 vs. Beiseker 17. Beiseker battery: Empey, Olson, H. Uffelman, A. Uffelman to Ternes; Irricana battery: Roughton to Lorimer.

Second Game: Crossfield 17 vs. Strathmore 4. Crossfield battery: Rodway to Stevens; Strathmore battery: Empey, Lausen, Schmaltz to L. Hausen.

Third and Final Game: Crossfield 17 vs. Irricana 12. Irricana battery: Nixdorf, Welso, B. Lawfen to G. Lorimer; Crossfield battery: Fleming, Lee, McLellan to Stevens.

BABY CONTEST:

Winners in the baby contest held the same day in Beiseker Memorial Hall were:

First Boy: Robert Stanley Olsen, age 11 months, son of Mr. and Mrs. Stanley Olsen of Beiseker.

First Girl: Shirley Ann Bauer, age 11 months, daughter of Mr. and Mrs. Albert Bauer (nee Miss Stern of Beiseker) now of Torrington, Alberta.

You will probably feel the effect of the steel strike more in the next few weeks than you did in the last few, even though production has resumed.
